

Exercise 1

Add Data to Table

```
let students = [  
  {  
    id: 1,  
    name: "John",  
    email: "john@example.com",  
    phone: "123-456-3303"  
  },  
  {  
    id: 2,  
    name: "Jane",  
    email: "jane@example.com",  
    phone: "123-456-3304"  
  },  
  {  
    id: 3,  
    name: "Mary",  
    email: "mary@example.com",  
    phone: "123-456-3305"  
  },  
  ., ., .  
];
```

Code the exercise on **JavaScript file** to show the list data from list to the table

ID	Username	Email	Phone	Action
0	Mengheang	mengheangpho@gmail.com	123-456-789	<button>Delete</button>
1	John	john@example.com	123-456-3303	<button>Delete</button>
2	Jane	jane@example.com	123-456-3304	<button>Delete</button>
3	Mary	mary@example.com	123-456-3305	<button>Delete</button>
4	Peter	peter@example.com	123-456-3306	<button>Delete</button>
5	Lisa	lisa@example.com	123-456-3307	<button>Delete</button>

Exercise 2

Remove a Row on Table

127.0.0.1:5500/EX2-Remove%20Row/index.html

127.0.0.1:5500 says
Are you sure you want to remove this item?

OK

Cancel

First Name	Last Name	Email	Phone	Action
Rady	y	rady@gmail.com	123456789	<div>Delete</div>
Dara	Khy	dara@gmail.com	433445643	<div>Delete</div>
Sala	Dy	sala@gmail.com	3939393	<div>Delete</div>
Mana	Ks	mana@gmail.com	123456789	<div>Delete</div>
Hana	Kk	hana@gmail.com	4333345788	<div>Delete</div>

1. Click **delete** on **row** you want to **delete**.

2. When you click **OK** on the **confirm dialog**, the **row** will be **deleted**.

First Name	Last Name	Email	Phone	Action
Dara	Khy	dara@gmail.com	433445643	<div>Delete</div>
Sala	Dy	sala@gmail.com	3939393	<div>Delete</div>
Mana	Ks	mana@gmail.com	123456789	<div>Delete</div>
Hana	Kk	hana@gmail.com	4333345788	<div>Delete</div>

Exercise 3

Show Date 🕒

4

Hour

1

Minute

1

Second

1 November 2023

Method	Description
getFullYear()	Get year as
getMonth()	Get month
getDate()	Get day as
getDay()	Get week
getHours()	Get hour
getMinutes()	Get minu
getSeconds()	Get seco
getMilliseconds()	Get mill
getTime()	Get tim
